Course Overview

Welcome to the FACES.NET day of OCP Services training. This course is designed to give trainees an understanding of the functions in FACES.NET pertaining to Services. The course is divided into sections, each having its own set of objectives and corresponding to a particular area of functionality in the FACES.NET system. A FACES.NET Scenario has been constructed to link the sections together and mimic the way FACES.NET will be used for Agency business. In the classroom, trainees will participate in a guided walkthrough of the FACES.NET Scenario in order to practice activities based on real-life situations.

Please keep in mind that the FACES.NET system is frequently updated, and some of the screens may have slightly changed after this document was printed.

Course Objectives

Upon completion of this course, the trainee will have an understanding of how CFSA business process correlates with FACES.NET data entry. By giving trainees practice time in the classroom, they will build confidence in their ability to properly enter and access data in the FACES.NET system.

Remember that a system is only as good as the information it receives. This course will train trainees how to supply FACES.NET the proper information so that it can remain a Federally certified Child Welfare Information Systems in the Nation. Best Wishes!

Introduction

What is FACES.NET?

FACES.NET is the District of Columbia's Statewide Automated Child Welfare Information System (SACWIS). The Child and Family Services Agency (CFSA) is the District of Columbia's child protection agency, which employs more than 400 social workers, and partners with fifteen private agencies. FACES.NET is designed to support social workers and the Agency in the following areas:

- § Case management activities, such as documenting contacts/visits, writing case plans and court reports;
- § Issuing payments to service providers;
- § Collecting data to produce outcome-based management;
- § Standardizing policy and practice.

FACES.NET has enabled the Agency to collect and disseminate information to diverse audiences including the Court Monitor, the Mayor's Office, The Washington Post, Federal oversight agencies such as the General Accounting Office (GAO), Administration of Children and Families (ACF), and Congress.

How to Use this Manual

This FACES.NET OCP Services manual is designed to introduce and reinforce the concept of using an automated information system to improve child welfare practice. In particular, the guide focuses on the responsibilities of OCP workers, who are placing children throughout the District of Columbia.

This manual further serves two functions. First, it will be your guide during the FACES.NET portion of your OCP Services training. With your instructor, you will complete each of the Sections and gain an understanding of how to use the FACES.NET system in your day-to-day responsibilities. You will complete the Sections over the day long course. Each section is organized in an easy-to-read manner laying the groundwork with a Practice Overview segment. Afterwards there are detailed step-by-step instructions on how to accomplish that topic using FACES.NET.

The second function of this manual is to serve as a desktop guide for FACES.NET use after you have completed the initial training. You may keep this copy of the manual, and make any notes that you desire during class. At the end of each section is a page designated for note-taking. Later, if you need to review how a particular task is performed in FACES.NET, you can look it up at your convenience.

This document adheres to standardized technical writing conventions. All command buttons are displayed the way they appear on the computer screen. All commands are in bold, indicating that an action should be taken. Each scenario is introduced using real case

stories or training activities in order to provide an appropriate context for the particular module. Throughout the manual, participants in the Jackson case are highlighted using the underline feature.

How to Get Help

If you still have question after consulting this resource, you are of course welcome to contact the FACES.NET Helpdesk. Helpdesk staff is available from 8:00 AM - 5:00 PM every weekday to assist with FACES.NET and technical questions. The FACES.NET helpdesk can be reached at 202-434-0009.

The Family Case

The Jackson family case is the case you may be familiar with from other elements of your Pre-service training, and is used as the sample case in this document. The scenario that you may use during the actual FACES.NET training may slightly differ. If so, follow your instructors' directions on how to reconcile this manual with the case details you see in FACES.NET. Details of the Jackson family case begin on the following pages.

Jackson Case Narrative

Office of Training Services Pre-Service Training for New Social Work Staff Field Practice Case

Learning Objectives:

1. Through using a case illustration, workers will have a better understanding of CFSA's programs and policies.
2. Through case illustration, workers will be able to understand how to effectively deliver services to clients.

Case Name: Shanté Jackson

Case Description:

The Jackson case came to the attention of Child and Family Services Agency's Child Protective Services Administration due to an allegation of abuse and neglect against Ms. Jackson. Ms. Jackson was previously known to CFSA. A neighbor reported Ms. Jackson's young children were left home alone and were seen in the streets unsupervised, unkempt and inappropriately dressed. It was also alleged that there were drug trafficking activities in Ms. Jackson's apartment. Upon investigation of the allegations, you observe that one child had (what appeared to be) belt marks on both arms and on her back.

Family Description:

Shanté Jackson is a 30-year-old, single, African American female. She is the mother of seven children and two grandchildren. She has a 7th grade education and no history of employment. Shanté has a history of substance abuse, sexual abuse, and depression. She currently uses cocaine and alcohol and is involved in selling drugs from her apartment. Shanté receives public assistance. Last month, she was beaten by one of her drug dealer boyfriends. She received multiple bruises to her head and body, a broken arm, and a black eye. As a result, she continues to suffer from frequent severe stomach pains and headaches. Shanté is estranged from her family members and has no contact with the biological fathers of her children. She does not have a support system or friends.

Paul Williams is a 16-year-old, African American male. He attends Carter Senior High School where he is in the 9th grade for the third time. His grades are poor and he is often truant. Socially, Paul functions at a very low level. He has few friends, displays extreme anger and aggression towards others, and often gets into fights with peers and school officials. Paul smokes marijuana and drinks beer at least twice per week and on weekends. He also assists his mother sell drugs from their home. He has been involved in petty thefts and has had frequent trouble with law enforcement officials.

Femalé Scott is a 15-year-old African American female. She has two small children Rodney, age 2, and Kiana (Bebe), age 6 months. Rodney displays temper tantrums and aggressive behavior that are often difficult for Femalé to handle. Otherwise he is progressing well and is happy and healthy. Femalé dropped out of junior high school when she became pregnant with her son Rodney. She sporadically attended an adult education program until she became pregnant with Kiana. During her pregnancy with Kiana, she occasionally drank beer and smoked marijuana. Currently, Femalé does not attend school. She is unaware of the whereabouts of her son Rodney's father. However, she has sporadic contact with Kiana's father, Ricky Boone, who provides no financial support to his daughter. Femalé smokes marijuana and drinks alcohol. She often hangs out on the corner with her friends and leaves Rodney and Kiana at home with her seven-year-old sibling, Tanisha. Although Femalé lives with her mother, they have a strained relationship. They frequently argue and fuss at each other regarding Femalé's children and household responsibilities.

Rodney Scott is a 2-year-old, African American toddler. He is a happy and healthy child. However, he displays temper tantrums and aggressive behavior that are difficult for his mother to handle. Rodney is progressing well developmentally. He enjoys playing with his 6 month old sibling, his aunt and uncles. He also enjoys watching Barney and Teletubbies.

Kiana Scott (known to her family as Bebe), is a 6-month-old African American infant. She is progressing poorly physically and developmentally. Kiana possibly has failure to thrive syndrome. However, she sporadically receives her well baby check-ups as Femalé often forgets her appointments. Kiana's eating habits are poor; she has not gained adequate weight in the last three months and has some developmental lags. Kiana cries excessively when she is not being held or played with.

Keyshawn Jackson is a 12-year-old African-American male and twin brother of Reyshawn. Keyshawn currently attends Parker Junior High School, where he is in the 6th grade. He

receives special education and is classified as emotionally disturbed. Keyshawn's grades are poor. He bullies other children in his class and is often involved in altercations. Keyshawn is disrespectful to his teachers and other school officials. He has been suspended twice in the last month. His grades are poor. Keyshawn displays anger and aggression both in school at home. His mother is unable to handle his angry outbursts and rages. He also destroys property at home and frequently gets into fights with his siblings and peers in the neighborhood.

Reyshawn Jackson (Rey-Rey) is a 12-year-old African-American male and twin brother of Keyshawn. Reyshawn attends Parker Junior High School, where he is in the 6th grade. He receives special education and is classified as learning disabled. Reyshawn is socially withdrawn and often appears sad and depressed. Reyshawn also stutters and prefers not to talk in order to avoid being teased. He has few friends and has difficulty fitting in with his peers. His grades are poor, but he tries very hard. At home he is sad, withdrawn, and is teased by his siblings.

Tanisha Holmes is a 7-year-old African-American female. She currently attends Lee Elementary School, where she is in the 3rd grade. Tanisha is an outgoing and friendly child. However, she is often attention seeking and overly affectionate with adults. Socially, she has few friends and gets along well with peers. Academically, she has difficulty with reading and math. She participates in a reading and math resource program at school and tries very hard to succeed. She is well liked by her teachers. Tanisha suffers from Enuresis and occasional Encopresis. She is embarrassed by her condition due to the fact that her classmates tease her about her odor. Tanisha also needs glasses. At home, Tanisha is overly sweet and compliant. However, her mother often physically punishes her for wetting and soiling herself. Tanisha also has unrealistic expectations and adult responsibilities placed on her, as she is often the caretaker for the younger children (Latonya, Lakeisha, Rodney, and Kiana) in the home. Consequently, Tanisha receives a beating for the wrongdoings of the other children. Tanisha enjoys her role as caretaker as she doesn't have many friends.

Latonya Holmes is a 5-year-old African American female. She attends Lee Elementary School, where she is in kindergarten. Latonya enjoys school and is generally a happy child. Latonya suffers from chronic bronchial asthma. She often requires hospitalization after an attack. Latonya's bronchial asthma is controlled with medication. At home, Latonya is quiet and withdrawn and cries easily. Latonya sleeps with her mother due to lack of space in the home. However, her mother's boyfriend also sleeps in the same bed occasionally. Due to the sleeping arrangements, Latonya has been subjected to ongoing sexual molestation by the mother's boyfriend. She revealed this to her sister Tanisha and told her not to tell. Latonya enjoys watching Barney and Teletubbies on television.

Lakeisha Jackson is a 3-year-old African American female. Lakeisha was born with a positive toxicology to cocaine. She was also born with the sickle cell trait. She was placed in foster care at birth, but returned home after three months. Lakeisha is developmentally delayed. She uses one to two word phrases, walks on her toes, and sucks her thumb. She is not potty trained and continues to use a bottle. Lakeisha also sleeps in the bed with her mother and Latonya. Lakeisha has frequent colds. She enjoys watching Barney and Teletubbies.

Description of Environment:

The family resides at 1254 Edgefield Terrace # T105, at the Brookfield Housing projects, in the N.E. section of Washington, D.C. The neighborhood is predominantly comprised of African Americans and some Hispanics. The neighborhood is heavily drug and crime infested. However, there are many community services and resources in the area. This includes substance abuse programs, mental health clinics, the Edgefield Collaborative, hospitals, and shelters.

Description of the Home:

The Jackson home consists of two bedrooms, one bathroom, a small living room/dining room, and a tiny kitchen. Home maintenance is very poor. The apartment reeks of urine, and is cockroach infested. There is dirty clothing and other miscellaneous items scattered all over the apartment floor. The kitchen is filthy with dirty dishes in the sink, on the countertops, and on the floor. The apartment is sparsely furnished with one couch, a small dining room table, one small television, two full size beds, one crib, and a playpen.

- g Definitions of Icons and Language Usage in FACES.NET

(This Page Intentionally Left Blank)

Practice Overview

FACES.NET is strategically used to support case practice and the business processes within each Administration. There are common icons and buttons that run throughout FACES.NET and aid in the ease of use of the FACES.NET screens. This segment illustrates some important features to know about the FACES.NET system.

Definition of Icons and Language Usage in FACES.NET

This segment reviews icons and language usage in this guide relative to FACES.NET.

Drop-Down Menu

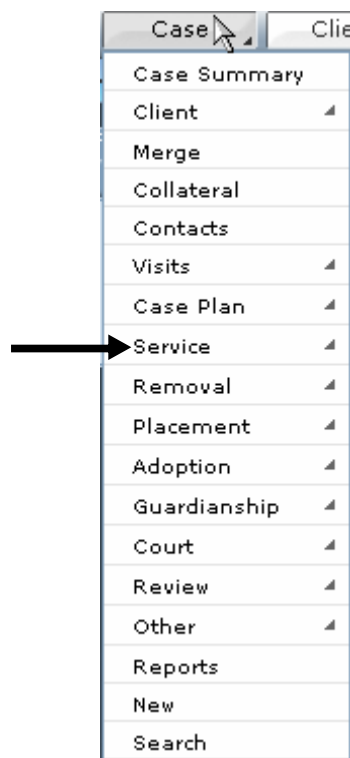

Figure 2.1

The gray command buttons at the top at the top of the FACES.NET screen is the Drop-Down Menu. These command buttons, which features the Referral, Case, Client, Provider, and Admin, is always accessible in FACES.NET, no matter what screen you are on. The options, within the menu, dynamically change as different entities are brought into focus, but the five main command buttons remain accessible. The menu includes a parent/child system. What this means is that any menu that has a gray arrow on the right side of the menu contains additional screens within it.

Breadcrumbs Toolbar

This toolbar is displayed when a specific track (Referral, Case, etc.) is selected. This toolbar will change depending on where you are in the system. Blue areas are previous selections accessed through these command buttons display menu listings which will dynamically change. The orange button is the screen that is currently in the work area.

Quick Link

The Quick Link is a new functionality within FACES.NET. This box, in the upper right hand corner of FACES.NET, allows for the entry of a Referral, Case, Client, Provider, Staff, Workshop ID, or Contract ID to bring that entity into focus.

Toolbar Additional Screen Icon

The additional screen icon is a small picture found on certain toolbar buttons. If the button has this icon, it means that there are lower level screens associated with that button. When you click on that button, it will move to the left side of the breadcrumbs toolbar, and a new series of buttons will appear on the right side of the toolbar. If a toolbar button does not have an icon, it means that there is only one screen associated with that button.

Radio Buttons

Radio buttons are the round circles found next to certain fields in FACES.NET. These allow you to quickly select a displayed option. Once selected, the radio button will turn to green. Only one radio button may be selected at a time.

Select Boxes

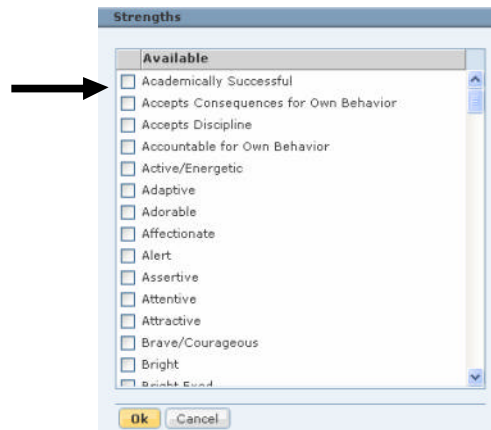

Figure 2.7

Select Boxes are collections of check boxes within a pop-up screen. These allow you to quickly select a displayed option. Once selected, the check box will contain a • inside the box. Unlike the radio button, more than one check box within the select box may be selected at a time.

Command Buttons

The row of gray/orange buttons on the bottom of any FACES.NET screen is called the Command buttons. These buttons are used to perform specific actions. A list of common command buttons and their functions are provided below:

SECTION 3: SERVICE REFERRALS

Performance Objectives

In this Section, you will gain confidence in your ability to:

- g Navigate to your Cases
- g Creating Service Log Records
- g Locating Providers

(This Page Intentionally Left Blank)

Practice Overview

The Service Log screen in FACES.NET functions in a manner that allows CFSA workers to document services provided to children and families in a number of ways. For example:

- § Workers can document non-paid services offered by community partners or;
- § Workers can document referrals to the Collaboratives or;
- § Workers can document services provided by themselves or other staff members or;
- § Workers can document court ordered services and track the progression of the service from the referral to initiation to completion.

For the purposes of this training, we will be covering the last bullet point - the documentation of court ordered services.

The court often orders CFSA to provide clinical services for the children in our care. These services range from mentoring and tutoring to individual therapy. CFSA maintains several contracts with qualified service providers.

When a worker receives an order for services he/she will complete a referral to the Office of Clinical Practice (OCP) which in turn locates an appropriate service provider from the list of contracted agencies. Once the OCP has identified a provider the worker is responsible for contacting the provider and initiating the service.

Entering an actual begin date in the service log record will generate end-of-the-month invoices for the provider. Upon completion of the service, i.e. the goal has been attained, the client refused the service or stopped attending, etc, an end date should be entered which will stop the generation of the invoice. The reason for completion should also be documented along with a narrative.

This process flow as shown in Figure 3.1.

This functionality creates a means for CFSA to track the time between the court order and the provision of services, as well as the interim steps in between. Also, workers can document service outcomes via the service status field and the narrative section. A history of the status changes is kept which provides this information.

SECTION 5: MANAGEMENT REPORTS

Performance Objectives

In this Section, you gain confidence in your ability to:

- g Access Management Reports
- g Access Online Reports
- g Access DDE Reports
- g Access Template Reports
- g Access File Cabinet

(This Page Intentionally Left Blank)

Practice Overview

This segment clarifies how to retrieve, view and print reports from FACES.NET. FACES.NET generates several types of reports: Management, On-line, Dynamic Data Exchange (DDE) and Template reports.

In order for the information in the reports to be meaningful, information in the system must be accurate and up-to-date. It is the worker's responsibility to enter detailed, up-to-date, and complete information into the FACES.NET system. Most functions in FACES.NET, Intake/Investigation, Case, Provider/Directory, Training, and Personnel, involve entering data that can be summarized in reports.

In addition, in this segment you will learn how to navigate in the File Cabinet, to place files appropriately in the File Cabinet and to move files among File Cabinet folders. The File Cabinet is accessed through the File Cabinet button on the main level toolbar. However, it is necessary to begin by bringing cases into focus in order to access File Cabinets for a specific case.

The File Cabinet is a storage bin for documents that relate to FACES.NET case, referral, assessment, and resource or staff person. The File Cabinet can contain FACES.NET-generated documents as well as Microsoft Word documents. By linking documents electronically, all users who have access to the File Cabinet have access to documents that relate to cases, referrals, assessments, etc. without sending electronic copies or checking out the physical case file.

FACES.NET Guide

Management Reports

Management reports allow supervisors, program managers and now social workers to track various statistics and measures of case management performance. For example, a management report that tracks cases with current case plans can be generated. Management Reports are also used to help ensure that the Agency is meeting goals established by the Court Monitor, the Department of Health and Human Services, the Mayor's Scorecard, among others.

Management Reports are accessed through the Admin module and will only appear if you have the appropriate security level. Management reports are now available for social workers via the Internet. They are non-modifiable but may be printed.

The following is a sample report used by OCP workers:

ACP083AS - All Services Referred to OCP Having Open Administrative Assignments As of...

FACES.NET Scenario

Steps Include:

- Step 1: Click on the Admin drop down menu.
- Step 2: Select the Management Report button.
- Step 3: Pick the report category.

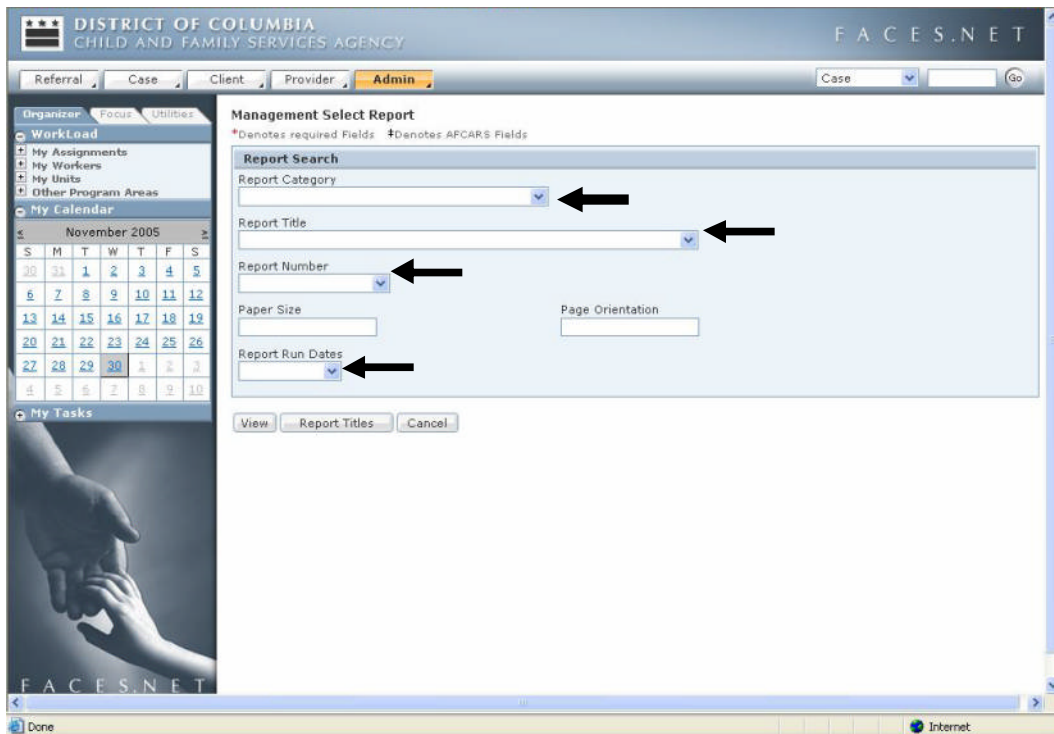

Figure 5.1

Step 4: Pick the Report Title.

Step 5: Pick the Report Run Date.

Step 6: Click View.

Notes:

§ You may choose the report by the report number.

§ Click Report Titles to see a list of all available reports.

On-Line Reports

On-line reports are generated in FACES.NET and cannot be edited by workers. Staff should always "preview" an on-line report to review the report for accuracy before printing.

FACES.NET Scenario

Steps Include:

Step 1: Open your Case.

Figure 5.2

- Step 2: Click the Reports button.
- Step 3: Select the Abscondence Summary Report. This report displays all abscondence information in the case that has been recorded in FACES.NET.
- Step 4: Click the Preview button to display a preview of the report.

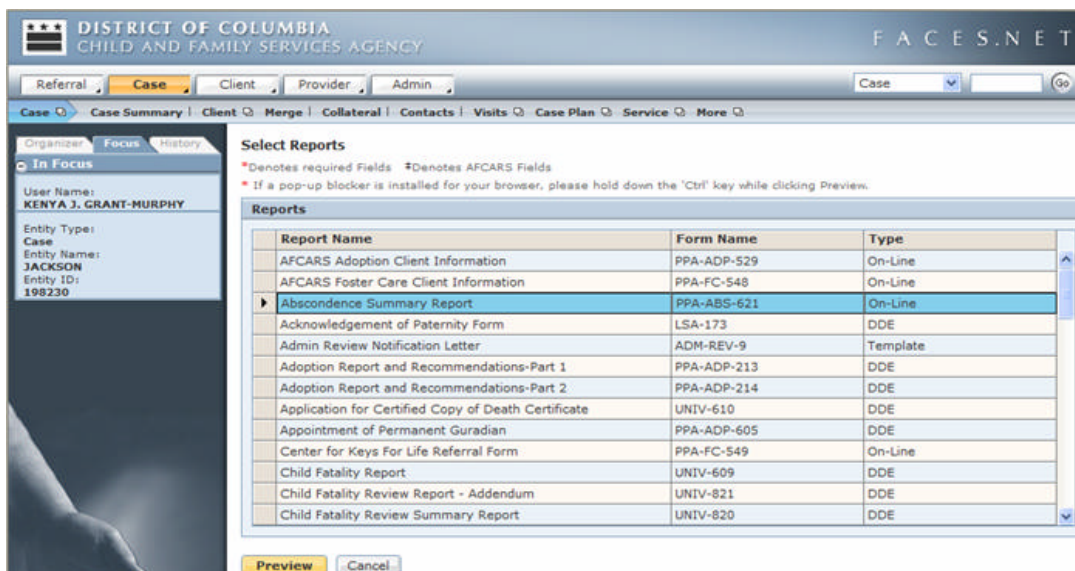

Figure 5.3

Step 5: Highlight the client involved in the abscondence (Keyshawn Jackson).

Step 6: Click OK to review the report.

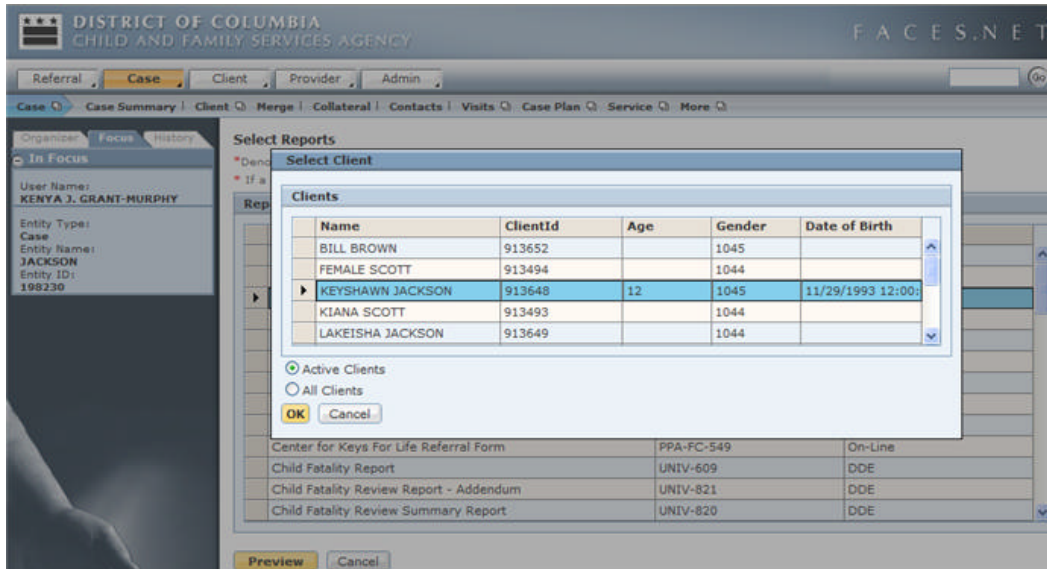

Figure 5.4

Note: As you page through the report, you see information that you entered in FACES.NET. Please do not print the report at this time.

DDE Reports

Dynamic Date Exchange (DDE) Reports are generated in FACES.NET, but are reviewed, saved, and printed from Adobe Acrobat. The report can be edited in Word. However, only when the worker returns to FACES.NET and corrects the information on FACES.NET screens and re-generates the report is the report truly accurate. Examples of DDE reports include transfer summaries and ICPC requests. In the example below, we will view the Medical Assistance form 30-A.

FACES.NET Scenario

Steps Include:

Step 1: Place the cursor over the Case menu and click Reports.

Step 2: Highlight the Medical Assistance (FORM – 30A) report and click Preview.

Step 3: Select one or more clients from the list, and click Preview.

Step 4: The report will be exported to Microsoft Word. If the Microsoft Word window does not appear, click the Word icon on the taskbar to display the window.

Step 5: A copy of the report can be saved or printed. To save the report in Microsoft Word:

- § Click the File button;
- § Click Save As;
- § In the appropriate field on the Save As pop-up window, enter a meaningful File Name; and
- § Click OK.

Note: Review the report for accuracy. CAUTION: Do not correct information just on the report. Correct inaccuracies in FACES.NET screens and re-run the report. Only then is the information on the report and in FACES.NET the same.

Template Reports

A Template Report is very different from the other two reports just viewed. These are not reports generated with FACES.NET information. Rather, they are forms available to print and complete as necessary.

FACES.NET Scenario

Steps Include:

- Step 1: Place the cursor over the Case menu and click Reports.
- Step 2: Select a Template report (choose Unusual Incident report).
- Step 3: Click the Preview button to display a preview of the report.
- Step 4: Wait until the report is completely generated.
- Step 5: The report will be exported to Microsoft Word. If the Microsoft Word window does not appear, click the Word icon on the taskbar to display the window.
- Step 6: Save the report in Microsoft Word.
 - § Click the File button;
 - § Click Save As;
 - § In the appropriate field on the Save As pop-up window, enter a meaningful File Name; and
 - § Click OK.

Note: After saving the report in Word, you are able to retrieve it again to review or print the report. You can also enter information directly into the Template report. You can save the completed Template (form) so that you can place it into the Case's File Cabinet. Please do not print the report at this time.

File Cabinet

The File Cabinet is a storage bin for documents that relate to FACES.NET case, referral, assessment, and resource or staff person. The File Cabinet can contain FACES.NET-generated documents as well as Microsoft Word documents. By linking documents electronically, all users who have access to the File Cabinet have access to documents that relate to cases, referrals, assessments, etc. without sending electronic copies or checking out the physical case file. The file cabinet also stores reports that are not to be amended. For example, transfer summaries are automatically stored in this file cabinet upon approval.

In this segment, you will learn how to navigate in the File Cabinet, to place files appropriately in the File Cabinet and to move files among File Cabinet folders. The File Cabinet is accessed through the Admin drop down menu. However, it is necessary to begin by bringing cases into focus in order to access File Cabinets for a specific case.

FACES.NET Scenario

In the Jackson case, we will view Kiana Scott's ICPC Forms for an out of state placement. We could also use the file cabinet to store additional case notes, letters, or other documents relating to the case. In the example FACES.NET Scenario below, we will review existing ICPC Forms.

Steps Include:

- Step 1: Place the cursor over the Admin menu, then File Cabinet, and click File Cabinet.
- Step 2: File Cabinet is setup in a tree formatted layout. Click on the plus signs to the left of the folders to navigate to a particular document.

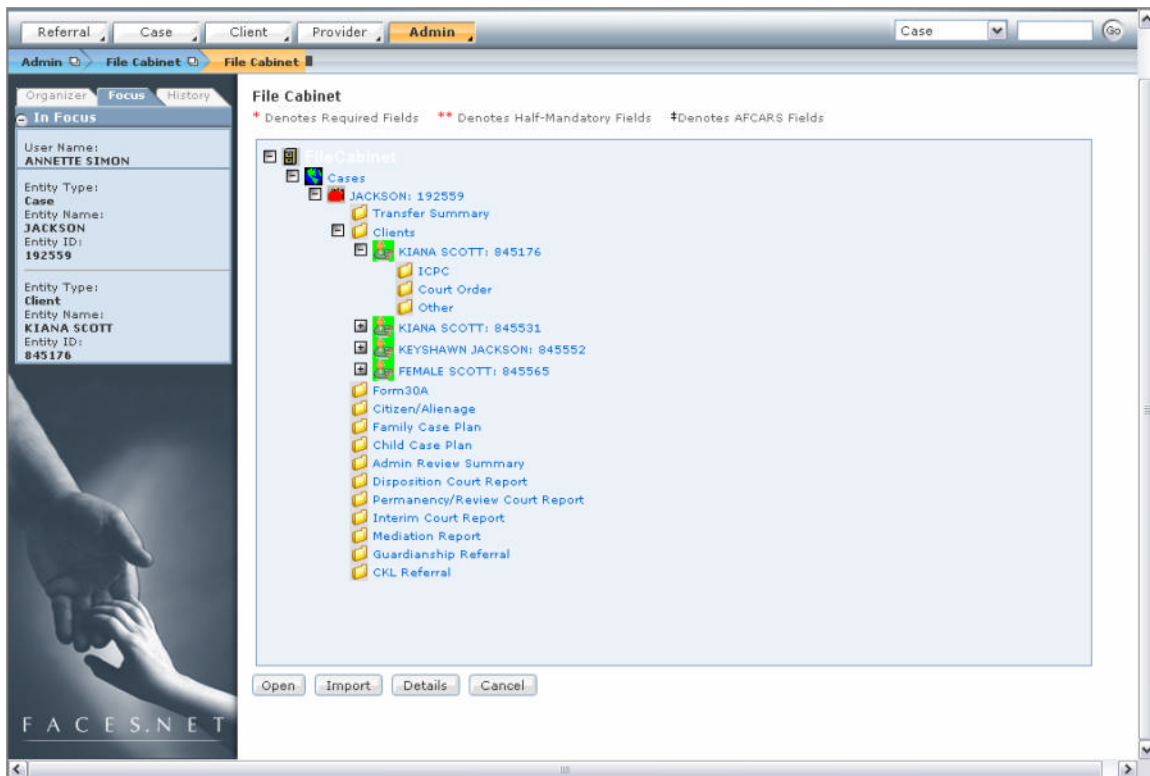

Figure 5.5

Step 3: Highlight the document and click Open.

Notes:

- § The Open command button opens the document that is highlighted.
- § The Import command button imports documents from your hard drive.
- § The Details command button shows who imported the document and when.
- § The plus signs on the left expand the topic. The minus signs on the left condense the topic.

Training

The Training Section will teach you how to use the various Training screens in FACES.NET. Most of the screens within training will be used only by the training unit; however, social workers will be able to enroll in classes and view workshop information. New workers must complete at least one FACES.NET training to gain security access to the training module. The training module also allows workers to enroll in courses at South Eastern University as well as FACES.NET courses. The schedule of FACES.NET training courses is available monthly from the FACES.NET office via email.

FACES.NET Scenario

Role: You are a Placement Unit worker who wants to enroll in the FACES.NET Overview training class.

Alerts

Alerts are built-in FACES.NET reminders of scheduled events. This helps you to remember case related tasks and appointments. Alerts are automatically or manually generated reminders to workers to complete a task by a certain date. This segment will allow you to view Alerts and determine their priority and create alerts for new upcoming tasks.

FACES.NET Scenario

Role: As a worker, you want to generate an Alert to remind you of an upcoming event.

Figure 6.15

View Alerts

To view the Alerts associated with a particular case, you must have that case open in FACES.NET. In the following exercises, you will check existing alert status, create a new alert, and display the court calendar.

Access Alert

Steps Include:

Step 1: To check the status of alerts in a case, first click the My Alerts link in the left toolbar which is located under My Tasks.

Step 2: The search for the alert or enter the case/referral ID for the alerts for a specific case.

The screenshot shows the FACES.NET web application. The top navigation bar includes 'Referral', 'Case', 'Client', 'Provider', and 'Admin'. Below this is a breadcrumb trail: 'Case > Case Summary > Client > Merge > Collateral > Contacts > Visits > Case Plan > Service > More'. The left sidebar has tabs for 'Organizer', 'Focus', and 'Utilities'. Under 'Focus', there is a section 'In Focus' with the following details: Entity Type: Case, Entity Name: JACKSON, Entity ID: 192552. The main content area is titled 'Alert Search' and contains a 'Filter Selection' section. It has three radio buttons: 'Overdue', 'Upcoming', and 'Name'. The 'Name' radio button is selected. Below the radio buttons, there is a dropdown menu showing 'JONES - 192552'. There are also date range filters labeled 'From' and 'To'. At the bottom of the filter section are three buttons: 'Search', 'New', and 'Cancel'.

Figure 6.16

SECTION 7: APPENDIX

(This Page Intentionally Left Blank)

Glossary of Terms

This Glossary of Terms contains basic information pertaining to the laws, regulations and practice principles which guide the operation of the Child and Family Services Agency (CFSA) of the District of Columbia.

The primary sources for materials in the Glossary are:

1. D.C. and federal law and regulation including definitions in use in the Adoption and Foster Care Analysis and Reporting System (AFCARS);
2. Program Instruction ACYF-PI-CB-96-01 entitled Amendments; Public Law 103-432;
3. Definitions established under the federal National Child Abuse and Neglect Data System (NCANDS);
4. CFSA staff experienced in child welfare practice; and
5. The LaShawn Revised Implementation Plan, August 1, 1994.

Abandoned Child: A child who is neglected in that:

1. the child is a foundling whose parents have made no effort to maintain a parental relationship with the child and reasonable efforts have been made to identify the child and to locate the parents for a period of at least 4 weeks since the child was found;
2. the child's parent gave a false identity at the time of the child's birth, since then has made no effort to maintain a parental relationship with the child and reasonable efforts have been made to locate the parent for a period of at least 4 weeks since his or her disappearance;
3. the child's parent, guardian or custodian is known but has abandoned the child in that he or she has made no reasonable effort to maintain a parental relationship with the child for a period of at least 4 months; or
4. the child has resided in a D.C. hospital for at least 10 calendar days following birth of the child, despite a medical determination that the child was ready for discharge from the hospital, and the parent, guardian or custodian of the child did not undertake any action or make any effort to maintain a parental, guardianship, or custodial relationship or contact with the child. (D.C. Code § 16-2316(d)).

Abandonment: when a child is left alone or with others and the child's caretaker did not return or make his or her whereabouts known. (AFCARS, 45 CFR § 1355 App. A).

Abuse: When a parent, guardian or custodian inflicts or fails to make reasonable efforts to prevent the infliction of physical or mental injury upon a child, including excessive corporal punishment, an act of sexual abuse, molestation or exploitation, or an injury that results from exposure to drug-related activity in the child's home environment. (D.C. Code § 16-2301 (23)).

Active: Status of a case in which an investigation is being conducted or services are being provided by Child and Family Services Agency (CFSA) and/or a contractual agency. See also, open

Adjudication: See fact-finding hearing

Administrative Review: One of two types of periodic review that meet federal requirements pertaining to cases of children in foster care. The system of case reviews established by P.L. 96- 272 is intended to: 1) assure that the child has a case plan which meets federal requirements; 2) review the status of the child; and 3) assure that certain procedural safeguards are applied in the case with respect to the legal rights of the child and the parents. Federal law requires that an administrative review be open to the participation of the parents of the child and conducted by a panel of appropriate persons at least one of whom is not responsible for the case management of, or the delivery of services to, either the child or the parents who are the subject of the review. See also, periodic review and P.L. 96-272. (P.L. 96-272, the "Adoption Assistance and Child Welfare Act of 1980" section 475(5)(B)).

Adoption: The method provided by State law which establishes the legal relationship of parent and child between persons who are not so related by birth, with the same mutual rights and obligations that exist between children and their birth parents. This relationship can only be termed "adoption" after the legal process is complete. (AFCARS, 45 CFR § 1355 App. A).

Adoption Assistance: a program established by Title IV-E of the Social Security Act ("Title IV-E") and which provides resources for the placement of children, with special needs, in adoptive homes.

Adoption Assistance Agreement: a written document which states the understanding between a child's adoptive parents and CFSA regarding the funding that will be paid to the adopters to meet the child's special needs.

Adoption Decree: Under D.C. law, a final or interlocutory (interim) decree granted when the Court finds that the prospective adoptee is suitable for adoption, the adoptive parent(s) can provide for the adoptee and that the adoption will be in the best interests of the prospective adoptee. A final decree may not be granted until the prospective adoptee has lived with the prospective adoptive parent for at least 6 months. (D.C. Code § 16-309).

Adoption Finalization: The finalizing of the adoption process with the final adoption court decree.

Adoption Plan: The plan for recruiting and matching an adoptive family with the child to be adopted.

Adoption Subsidy: Payments made on a short- or long- term basis pursuant to an agreement between D.C. and an adoptive family concluded prior to an adoption. The payments are made on behalf of a child with special needs when it appears that adoption could not take place without financial aid. Eligibility for a subsidy pertains to the child and continues until the child reaches 18 years of age, with reviews of continuing need annually. Subsidized adoptions may be funded under Title IV-E of the Social Security Act, by D.C. or through other public or private resources. (D.C. Code § 3-115) .See also, special needs.

Adoptive Home (Pre-finalization): The District of Columbia, in its regulations, includes families waiting to adopt when it defines an adoptive family as "a household, which has been approved by a child-placing agency to accept a child for adoption, which may be awaiting placement of a child or may have a child in the home" (29 DCMR § 1645.1). Federal law, on the other hand, distinguishes families waiting to adopt from those who have adopted a child by defining the former as "pre-adoptive" homes and the latter as "adoptive" homes (AFCARS, 45 CFR 1355, Apps. A and B) .See Pre-Adoptive Home.

Adoptive Home: A home in which a child is living following finalization of Court adoption proceedings which make the child legally a member of the family residing in the household. The family may or may not be receiving an adoption subsidy on behalf of the child.

Adoptive Parent: A person with the legal relation of parent to a child not related by birth, with the same mutual rights and obligations that exist between children and their birth parents. (AFCARS, 45 CFR § 1355 App. A) .In Defining "adoptive parent", D.C. regulations include not only an individual "who has adopted a child", but also "a single or married person with whom a child has been placed for adoption" (29 DCMR 1645.1). Under D.C. law, "the term 'adoptive family' includes single persons". (D.C. Code § 3-115).

AFCARS: The Adoption and Foster Care -Analysis and Reporting System established under a federal mandate to provide for effective tracking, managing and reporting of information pertaining to children and families served by public foster care and adoption agencies in the United States. (In general, 45 CFR §§ 1355.40, 1355.53 and 1355 App. A-E).

AFCARS ID: This is the Record Number field value used in the AFCARS data submission or the value which would be assigned.

AFDC Relatedness: With the passage of TANF, the Title IV-E financial eligibility criteria was established as the former Aid to Families with Dependent Children (AFDC) financial eligibility criteria in place as of 7/14/96.

Affidavit of paternity: a document where a birth mother identifies who the birth father of the named child is, their last contact with the birth father and his last known whereabouts. This form needs to be notarized.

Aftercare: A brief (typically, 90 days) period of time immediately following a child's return to his or her own home from out-of-home care during which services are provided to the child and family to promote reintegration.

Agency: District of Columbia, Child and Family Services Agency.

Aid to Families with Dependent Children (AFDC): A program, also known as welfare, established under Title IV-A of the Social Security Act to provide financial support for poor children and their families. An individual who cares for a closely related child who is conditionally released from shelter care, committed to the Agency, or in the home as the result of a third-party placement may apply to the Income Maintenance Administration (IMA) to receive AFDC benefits and Medical Assistance (MA) for the child. AFDC and MA benefits may continue after the relative has assumed guardianship of the child.

Alcohol: Alcohol is the most commonly used and widely abused drug in the country. It is found in beers, wines and hard liquors.

Allegation: See report.

Alleged Victim: A child about whom a report regarding maltreatment has been made to a CPS agency.

American Indian or Alaska Native: Having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.

Annual Goal: Statement describing the anticipated growth of a student's skill and knowledge written into a student's yearly Individualized Education Program.

Anonymous Report Source: An individual who reports a suspected incident of child maltreatment without identifying himself or herself.

Annual Review: A meeting held at least once a year to look at, talk about, and study a student's Individualized Education Program (IEP). The purpose of the review is to make decisions about changes in the IEP, review the placement, and develop a new IEP for the year ahead.

Applicant: The person applying for a criminal records check or a person seeking application as a foster parent with the Child and Family Services Agency.

ARP: Adoption Resource Program.

Asian: Having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian sub-continent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

Assessment: Review of the facts by workers and social workers to determine the appropriateness of a foster parent or foster home.

Assessment/Investigation: A process by which CFSA is to gather sufficient information to determine the following:

1. if child maltreatment occurred;
2. if there is a risk of future maltreatment and the level of that risk;
3. if the child is safe in the home, and if not, what interventions will ensure the child's protection and maintain the family unit if at all possible; and
4. if continuing agency or community services are needed to reduce the risk of maltreatment occurring in the future.

Assistive Technology: Any item, piece of equipment, or product system that is used to increase, maintain, or improve the functional capabilities of children with disabilities; e.g., augmentative communication boards, computer input devices, special switches.

At-Risk: Condition whereby a child is, by virtue of his or her vulnerability, in danger or jeopardy of abuse or neglect.

Background Conference: a meeting where all parties involved with the child(ren) are invited to share information collectively. This conference is for the benefit of all parties to ensure that everyone is working from the same framework. This information is shared to assist the foster parent(s)/pre-adoptive parents in making an informed decision to adopt the child(ren).

Backlog: See [Intake Backlog](#).

Basic Services: the level of out-of-home care provided to children who need routine attention, require the professional intervention no more than once a week, and have a good prognosis for adaptive functioning. A child in this care level does not need intensive supervision or technical skills from his/her caregiver. Further, these children have no major mental health/emotional problems or medical needs.

Behavior Problem-Child: Behavior in the school or community that adversely affects socialization, learning, growth, and moral development. May include adjudicated or non-adjudicated behavior problems. Includes running away from home or a placement.

Biological Parent: The birth mother or father of the child rather than the adoptive or foster parent or the stepparent.

Black or African-American: Having origins in any of the black racial groups of Africa.

Birth Parents: The natural parent of the child(ren).

Board and Child Care Rate: is a rate paid for the care required by a child who is placed in foster care from a neglecting and/or abusing family. The board rate is based on the service needs of the child; therefore, the general policy is that a foster parent will be expected to provide transportation for medical or therapeutic appointments up to one per week within a normal board rate. There are four categories of board rates as follows:

1. Normal Rate
2. Special Board Rate
3. Handicapped Board Rate
4. Multiple-Handicapped Rate

Boarder Baby: Under D.C. law, a child who has resided in a hospital in D.C. for at least 10 calendar days following the birth of the child, despite a medical determination that the child is ready for discharge from the hospital, and the parent, guardian or custodian of the child has not taken any action or made any effort to maintain a parental, guardianship or custodial relationship or contact with the child. (D.C. Code § 16-2301 (9) (G)).

Business Day: Monday through Friday, excluding legal holidays.

Caretaker: Under D.C. law, an adult person in whose care a minor has been entrusted by written authorization of the child's parent, guardian or legal custodian. (D.C. Code § 16-2301 (27)).

Case: A documented instance of Agency activity or series of activities undertaken on behalf of a parent, family or individual child occurring in response to a report of abuse or neglect, a relinquishment or a request for voluntary care. Agency activities undertaken on behalf of a parent or family may include an investigation (generally at intake), family preservation services, child protective services, foster care services or adoption services. Agency activities undertaken on behalf of an individual child may include foster care services or adoption services. See also, child's case and family case.

Caseload: The total number of family and/or child cases serviced by a social worker.

Case Management: Case Management is the coordination of the multiplicity of services required by a child abuse and neglect client. Some of these services may be purchased from an agency other than the mandated agency. In general, the role of the case manager is not primarily the provision of direct services but the monitoring of those services to assure that they are relevant to the client, delivered in a useful way, and appropriately used by the client. To do this, a case manager assumes the following responsibilities:

1. ascertains that all mandated reports have been properly filed;
2. informs all professionals involved with the family that reports of suspected child abuse or neglect have been made;
3. keeps all involved social workers apprised of new information;
4. calls and chairs the initial and ongoing case conferences for assessment, disposition and treatment plans;

5. coordinates interagency follow-up; and
6. calls further case conferences as needed.

Case Management Services: Services or activities for the arrangement, coordination and monitoring of services to meet the needs of children and their families. (AFCARS, 45 CFR § 1355 App. A).

Case Plan: A written document that serves to guide the provision of services to a family and/or to a specific child. The case plan, developed with members of the family and/or the child, clearly identifies goals and objectives to be achieved and spells out tasks to be performed by the worker, adult family members and/or child. Time frames for completion of tasks must be included in a case plan, which is signed by those directly involved as well as by a CFSA or Consortium agency supervisor responsible for approving the plan. For the case plan of a child in foster care, P.L. 96-272 the "Adoption Assistance and Child Welfare Act of 1980" requires at least:

1. a description of the type of home or institution in which the child is, or will be, placed;
2. a discussion of the appropriateness of the child's placement;
3. a discussion of how the Agency plans to carry out the court's determination that continuation in the home would be contrary to the child's welfare and that, where not precluded, reasonable efforts have been made to prevent removal of the child from the home and/or to facilitate the return of the child to the home;
4. a plan for assuring that the child receives proper care and that services are provided to the parents, child and foster parents in order to improve the conditions in the parents' home, facilitate the return of the child to his own home or to a permanent placement and for addressing the needs of the child while in foster care, including a discussion of the appropriateness of the services that have been provided to the child under the plan.

P.L. 96-272 also requires that each foster child's case plan be "designed to achieve placement in the least restrictive (most family like) and most appropriate setting available and in close proximity to the parents' home consistent with the best interest: and special needs of the child." Furthermore, the case plan of any child placed in a foster family home or child-care institution a substantial distance from the home of the parents, or in a different State, must "set forth the reasons why the placement is in the best interests of the child".
